**Town Manager Report:**  

**Blue Ridge Storm Water Management Retrofit.**  
Thomas, Bennett and Hunter have begun work on the pond. The first of the dirt has been hauled to the lagoon. This project will be paid for by Carroll County out of the Storm Water Management Mitigation fund. The Town contributes $16,000 per year to this fund. All municipalities in the County contribute, and in composite, contribute about approximately 15% of the total funds; the County contributes 85%. This storm water management pond project is expected to cost $429,900.00.  
County staff, Maryland-Midland representatives and Town staff met to discuss the possibility of hauling excess dirt from another storm water management project in Westminster to New Windsor by rail. If it is feasible there would be enough dirt to finish filling the lagoon.

**Blue Ridge and College Avenues – Design and Engineering RFP**  
The changes to the bump outs which the Council requested were sent to the engineer. The changes will cause conflicts with ADA sidewalk compliance and storm water management. The elimination of the bump-out at College and Route 75 will be a significant redesign and require easements to be required. It may be possible to redesign but not totally eliminate the one at Blue Ridge and College.
Scott Satchell of DHCD and Town staff met to discuss the project schedule and the timing issues. Scott is checking to see what the options are in terms of a time extension on the bid schedule and the initial expenditure of 5% of the funds.

**Sludge Press**
The 60% submission has been received.

**Atlee Ridge POS Project**
Project is tentatively scheduled for the December 20th for Board of Public Works approval.

**Wastewater Treatment Plant Repair**
The agreements with CST and Mid-Atlantic have been signed and forwarded to them. No information has been received as to when the production of the panels may be scheduled.

**Rate Study**
MCET has been notified of the award. MCET has provided a list of information that is required to begin the study.

**Meeting Dates**
Please review your calendars for February 17th and March 17th for possible additional Saturday Work Session meetings.

**Streetscape**

**Sewer Lining**
The lining work is complete. Bids are being requested for the replacement of six to eight manholes rings and covers. This work will be combined with the repair of about 25 manholes around Town that project above the road surface. These manholes have been damaged by snow plows and also cause damage to the snow plows.

**Waterline Design**
The 30% drawings have been submitted to SHA for review. The additional cost to the project due to the traffic circle is estimated to be $855,000.00.

**Lighting**
A meeting has been requested with SHA to review the lighting layout and estimate.

New Business:

- **Fair Trash Reduction – FuTuRe – Public Engagement**
  Information provided by Kristen Brown of Waste Zero for review by the Mayor and Town Council.

New Windsor in cooperation with Carroll County is evaluating participating in pilot of a trash reduction program known as FuTuRe. At its core is an effort to encourage residents to reduce the amount of trash they generate through several steps, including increasing various forms of recycling, waste diversion, as well as paying for the amount of trash they throw away.

The County Commissioners have authorized a Public Engagement process to inform the residents of the program and gauge the receptiveness to the program and going forward with a pilot. The Public Engagement process will be coordinated by Kristen Brown of Waste Zero. The first step in the process is the creation of Advisory Committee of 6 to 12 people. The committee would include two Council members, a trash hauler, an individual with an environmental background, a financial background, a large family, a single person, a retired person and a marketing person.

The Public Engagement Process is outlined as follows:

- **Step One: Advisory Committee (December)**
- **Step Two: Public Meetings and Outreach (Mid Dec (if ready) or Early January)**
- **Step Three: Gather Resident Feedback (Mid-January)**
- **Step Four: New Windsor Council Approval (early-February)**
- **Step Five: County Approval for Pilot (late February / early March)**
- **Step Six: Begin Pilot (April)**
- **Step Seven: Evaluate Pilot Results (November)**
