## MAYOR ROOP'S MESSAGE

I would like to express my deepest sympathy for the deaths of Franklin (Frank) Schaeffer and Jacob "Jake" Altwater. Frank was Town Manager for 8 ½ years. Frank brought his knowledge and experiences to the Town in September 2010 and retired in April 2018. During that time, Frank's recommendations created the path for the Town's Enterprise Fund to become financially stable. I had the honor and privilege of working with Frank and will always cherish our friendship.

When I first became Mayor in 2009, I wanted the Town to return to sponsoring Memorial Day Services. I knew I could count on Jake to assist with the many details it takes for a successful Memorial Day Service. Jake was an ultimate patriotic citizen and devoted untold hours to the creation of Profiles of Veterans, from World War I through the Gulf War and Desert Storm. He displayed these veterans on posters and shared them with the public at banks and other locations throughout the year, honoring their service to America. For many years, Jake was a huge part of our Memorial Day Services. Thank you Jake for all you did for our Memorial Day Services, I couldn't have done it without your help.

201 MAIN STREET PARK: At the March 15 Town Work Session, Council approved the bid for the construction of a small park at 201 Main Street. Douglas Lawn & Landscaping will begin work on the park within the next few weeks. The park project will be divided into two phases. The first phase's budget is \$89,240, 90% funded through the State's Program Open Space, 5% Town, and 5% County match. The Town will apply again this year for additional Program Open Space funding to complete the second phase. One of the major features of this project is to move the water fountain back to near its original location.

DIELMAN INN: I'm pleased to announce the grant-funded Foundation Stabilization Project is about to begin. Work to stabilize the foundation is expected to begin around the middle of May. Phase One of the project is expected to be completed in 4 to 6 months. We will be applying for an additional grant this spring to complete the foundation stabilization project. Once this project is completed, we will apply for grants to renovate the interior.

The Archeological Society of Maryland, Inc. (ASM) has agreed to do a major archeological dig on the grounds of the Historic Dielman Inn. Once they have completed a scope of work for the dig, I will post it on the Town's Facebook page. Depending on COVID-19 guidelines and restrictions, ASM is open to allowing local volunteers to assist in the dig. The plan is to begin the dig around Memorial Day, 2021. The dig will take several months and hopefully, uncover some exciting history of the Inn dating back to 1797.

Music on the Main 2021 planning is underway. Save The Date, Saturday, October 2 from 1:00 to 7:00 PM. Stay informed with updates on the Town's Facebook page. New this year is the Inaugural Franklin G. Schaeffer Memorial 5K Walk/Run. Frank was an avid runner and coordinated many races throughout Carroll County. The 5K Walk/Run will take place on the Seibel and Hibberd farms in the morning before the start of Music on the Main.

*No one who achieves success does so without acknowledging the help of others.  
The wise and confident acknowledge this help with gratitude.

### \*\*\*\*IMPORTANT FIRE HYDRANT FLUSHING SCHEDULE INFORMATION\*\*\*\*

The Town of New Windsor Public Works Dept. will be flushing and exercising fire hydrants throughout Town beginning the week of April 12th between 9:00 AM - 3:00 PM, Monday - Friday. Hydrant flushing will continue for 3 weeks or until all hydrants are flushed and exercised. The schedule and areas of Town are as follows:

Week of April 12th - Old Town

Week of April 19th - Blue Ridge Development

Week of April 26th - Atlee Ridge Development

This is a vital process to insure hydrants are in good working order for when they are needed most. Flushing will also remove accumulated sediment that is built up in the pipes and help insure the cleanest water possible.

Water users may experience a brief reduction in water pressure and/or discoloration. When hydrants in your area are being flushed, while the water supply remains safe to drink, should you notice discoloration, let the **COLD** water run until clear. Washing clothes and dishes is discouraged until discoloration disappears. **NEVER** run warm or hot water if discoloration occurs after flushing as that could lead to sediment getting into your water heater and damage.

The Town recommends keeping bottled water and/or gallon jugs of water on hand during the flushing period should you experience discoloration.

Thank you for your cooperation and understanding. If you have any questions or concerns please call the Town Office at (410)-635-6575.

### Carroll County Sheriff News:

Spring is right around the corner which brings in the warmer weather and the start of longer days. As the warmer days arrive, we will begin to see an increase of bicycle traffic to our roadways. According to the National Highway Transportation Safety Administration (NHTSA), the statistics for 2017 showed that bicycle related deaths were 75% more prevalent in urban areas and 25% in rural areas. The data also showed that regardless of the season, the hours between 6PM to 9PM were the most dangerous to bicyclists. Out of the fatalities involving bicyclist in 2017, data showed that alcohol was involved in 37% of all the fatal crashes. With that said, here are a few quick reminders to remember about bicycle safety.

Before heading out the door to ride, cyclists should remember the following, according to the National Highway Transportation Safety Administration (NHTSA):

Ride a bike that fits you. Size does matter and if it's too big, then it's harder for the operator to control.

Ride a bike that works: Complete a pre-trip inspection by following the ABC's of biking.

A – Air, B – Brakes and C – Chain.

Wear equipment to protect you and make you more visible to others, like a bike helmet, brightly colored clothing during the day, and reflective gear at night. Attach a front mounted white light, and a red mounted rear light or reflectors to your bike.

Don't share the seat with others and both of your hands should be on the handlebars unless signaling a turn.

Carry all items in a backpack or strapped to the back of the bike.

Tuck and tie your shoelaces and pant legs so they don't get caught in your bike chain.

Plan your route to follow roads that have less traffic and slower speed limits. The safest bike route should have a bike lane or path.

Once on the road, cyclists should remember that bicycles are considered motor vehicles within the state of Maryland and across the nation. As a result, cyclists are required to follow the rules of the road, just like any other motor vehicle or driver by:

Riding in the same direction of the traffic flow.

Obeying all street signs, signals, and road markings.

No texting or talking on the mobile device unless you are safely parked.

Don't ride on sidewalks

Motorist should remember the following when driving down the roadway.

- Yield to cyclists as you would motorists. Do not underestimate their speed. This will help avoid turning in front of a cyclist traveling on the road, often at an intersection or driveway.
- In parking lots, at stop signs, when backing up, or when parking, search your surroundings for other vehicles, including cyclists.
- Drivers turning right on red should look to the right and behind to avoid hitting a cyclist approaching from the right rear. Stop completely and look left-right-left and behind before turning right on red.
- Obey the speed limit and reduce speed for road conditions.  
Give cyclists room, allow at least three (3) feet of space when passing. Pass cyclists as you would any other vehicle—when it's safe to move over into an adjacent lane.

Hopefully these remindful tips will keep our cycling friends safe this year. As always, be kind, be healthy and stay safe out there.
